

Capabilities Statement

Core Competencies

Ecovie specializes in designing and building rainwater collection systems for businesses, institutions, and homes. With a full array of products, engineering, design credentials, Ecovie can bring to fruition any rainwater supply project for landscape irrigation, indoor plumbing, and drinking water applications.

Rainwater Products: From pre-filters to tanks to treatment, a superior product line has been put together to complement the design and installation.

Rainwater System Design: Providing all system and design alternatives using computer modeling and process design fundamentals.

Project Benefit Analysis: All aspects of a specific project are analyzed including storm water impact, water supply, and project financials (ROI, Payback, NPV).

Project Management: With a track record of project management success throughout the world, our team will interface with yours to bring the project successfully to completion.

Start Up Support and Maintenance: Our designs focus on simplicity and ease of operation. That in addition with detailed start up guides, troubleshooting and support help assure ongoing reliable system operation. We offer maintenance contracts as desired.

Past Performance

With a wide range of successful designs and installations since 2008, our multi-functional staff has a proven track record. With technical training and work experience in chemical and civil engineering as well as landscape architecture, finance, and project management, we set ourselves apart from other rainwater collection specialists.

Differentiators

- Degreed staff including BScHE, BS Ind. Eng. BSLA, MBA, etc.
- ARCOSA Certified Staff.
- Certified small business.
- Founder on Board of Directors of ARCOSA and president of SERHSA
- Strategic Partnerships with over a dozen businesses.

Project Examples:

- 88 Unit Apartment Complex for Toilet Flushing and Laundry
- Potable 30,000 Gallon System – St. Croix USVI
- 10,000 Gallon Irrigation System for University of Georgia
- 48,600 Gallon System for Industrial Car Wash

COMPANY DATA:

Located in Atlanta, GA and Orlando, FL.
Ecovie offers services in the continental United States, as well as Latin America and the Caribbean.
